

## Replacement Spaform SF273 PCB circuit board

SF273PCB  
S/N 52604\*\*\*

### Product Description

Spaform **SF273 PCB** – This is a genuine Spaform PCB, made by Balboa and is a direct replacement for any existing SF273 board, this must only be fitted to Spaform Spas where an existing failed **SF273** control board (PCB) is found

Although other generic PCBs made by Balboa are available and will fit as a replacement for the **SF273** we must advise against it, they are never as straight forward and as easy to set up as you think, Spaform PCBs have their own special programming and as a result no other generic PCB board works as well and can be problematic. Our advice is to **only fit a direct replacement for the board you have already.**

### Useful Info

How to identify your Spaform PCB,

On every Balboa / Spaform PCB control board is a white sticker with a barcode on, above the barcode is a S/N number, for this board it will be **52604\*\*\*xxxxxxxxx** & below the barcode will read BOARD SPAFRM **SF273 M7CE**

The size of PCB is also a useful quick way to double check. The **SF273** PCB measures **240mm x 180 mm (Tabs Included)**

PCB = Printed Circuit Board

## Specifications – SF273

**Article No.** = 52604

**Model** = Balboa Elite M7 (Spaform licensed SF273)

**No. of Pump Connections** = 3

**Pump 2** = Single Speed only

**Blower Connection** = Yes

**Light Connection** = 12V or 230V

**Sensor Type** = Dual M7 sensors

**Manufacturer** = Balboa

**Volts/Hz** = 230v 50Hz

**Pump 1** = Single or 2 Speed

**Pump 3** = Single Speed - Optional

**Heater Connection** = Yes

**Ozone Connection** = Yes

**Size Inc Tabs** = 240mm x 180mm

**Compatible With -** Balboa Elite M7 control box SF273  
SF273 Touch pad or VL801D

## Important Note

This type of product must be installed by a competent / qualified person, and if installed incorrectly can be easily damaged.

This board must not be fitted to any other make of hot tub or spa and only used as a direct replacement for existing Spaform/Balboa **SF273** PCB board.
