**PULIT+**

**advance**

The professional  
choice of cleaner:  
ultra efficient

- Choice of various programs

3 cleaning systems

Top access filter

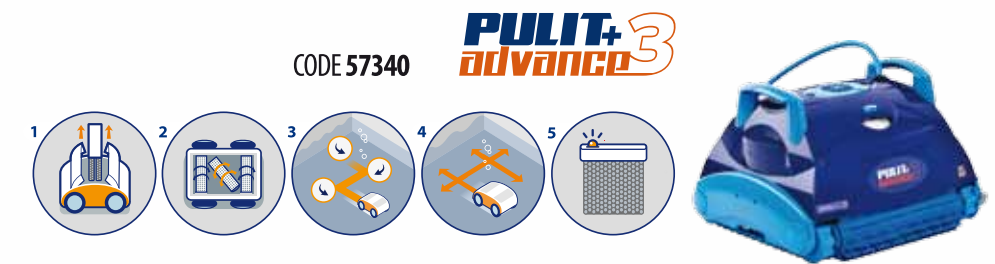

## Enjoy professional performance... It is now possible!

The **Pulit Advance+** will remove all dirt from your pool in record time due to the **AquaSmart** electronic system and the three cleaning systems. The filters are the most ergonomic ones on the market as they are accessed from the top, which means they are easily cleaned without getting into contact with the dirt. Additionally two filters with different mesh filters can be purchased. They have two height-adjustable suction nozzles to ensure they adapt perfectly to any pool. There are **a number of cycles that can be programmed to suit your needs** and a **LED indicator** that shows when the filter has to be cleaned.

- Choice of various programs
- 3 cleaning systems
- Top access filter

Remember that all cleaners which have the AquaSmart Inside software offer the best warranty in terms of performance.
