Lightweight and able to overcome any obstacle in your pool!

The **Max+** is the first **all terrain** robot with an exclusive and innovative design. Its design is inspired by **modern, ergonomic shapes**, which makes it an extremely light robot and enables it to get over any obstacles it comes across in a pool. Its **Easy View** system means it is easy to see how dirty the filter cartridges are, which makes it an extremely practical robot. The same goes for its **Easy Open** system, which makes accessing the cartridges a straightforward operation and they can be cleaned without you getting dirty. The **Max+** is surprisingly easy to use, as it comes with a **Plug & Play** system, which means that by just putting it in the pool it starts to work either on the floor or the wall of your pool. (Max+5)

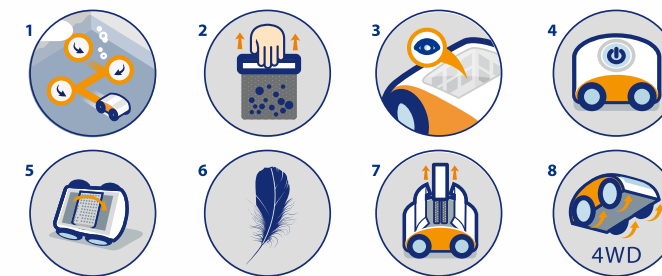

- ▶ 4WD
- ▶ Easy View
- ▶ Plug & Play

Remember that all cleaners which have the AquaSmart Inside software offer the best warranty in terms of performance.
