

SPA HEATER

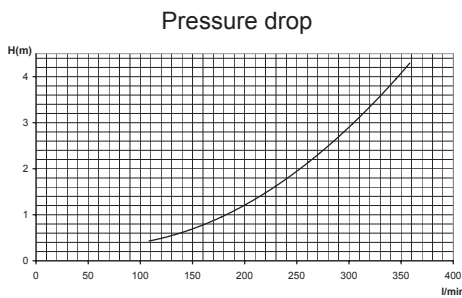

Minimum flow 90 l/min

Technical data

Spa heater 1-phase 230V

Item no.	kW	Length mm	Pipe connection	Amp.
141650-01	1,5	200	Ø 50 mm	7
141651-01	2,0	200	Ø 50 mm	9
141652-01	3,0	200	Ø 50 mm	13

- **Three capacities: 1,5 kW, 2 kW and 3 kW** - Fast heating of spas and small pools.
- **Electric heater made of ABS** - Tough and corrosion-resistant.
- **Minimum dimensions** - Simple installation even when there is little space.
- **Equipped with thermostat 0-45°C** - Simple setting of required temperature.
- **Overheating cutout and flow switch** - Dual safety against overheating and a too low water flow.
- **Union couplings for Ø 50 mm pipes** - For simple installation.
- **Tested and certified by a Notified Body** - Important for product safety.

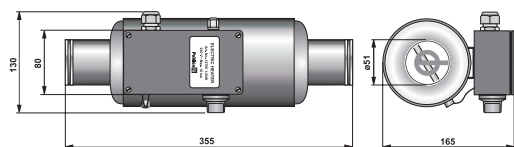

AIR HEATER

Technical data

Air heater 1-phase 230V

Item no.	kW	Length mm	Pipe connection	Amp.
12700	1,5	360	Ø 51 mm	7

- **Made of acid-resistant stainless steel** - High quality and long life.
- **Minimum dimensions** - Simple installation even in limited spaces.
- **Adjustable thermostat 30-80°C** - For personal adjustment of temperature.
- **Overheating cutout** - Automatically activated in the event of insufficient flow.
- **Union couplings for Ø 51 mm pipes** - For simple installation.
- **Tested and certified by a Notified Body** - Important for product safety.
