More Flexibility. Wide Selection of Hot Tub Topside Panels.

The ML Series of topside panels were designed to work with the Elite VS (Values) and GS (Global) Series of hot tub control systems. These panels support the advanced functions of the VS/GS controls that use Balboa's patented M7 temperature and flow sensor technology and a new universal control platform. The sleek panels have LCD graphical displays with moving function indicator icons, maintenance reminders and service alerts on the easy-to-read screen. All panels are interchangeable and hot swappable providing a wide selection of options and sizes.

Standard Systems

VL702S Serial Standard Panel
