

in.k330

An affordable touch of luxury

Classy look

With its larger dimension, sleekness and its backlit outer rim, Gecko's in.k330 is an affordable alternative for those who want to experience luxury. Its design will enhance the look of any spa.

Distinctive display

Completely ergonomic, our new in.k330 has a big LCD screen with excellent contrasts and brightness. Its static colors and 5 keys make it so easy to use. A classy and ergonomic keypad, that's the perfect combination!

Perfect 2 pump affordable solution

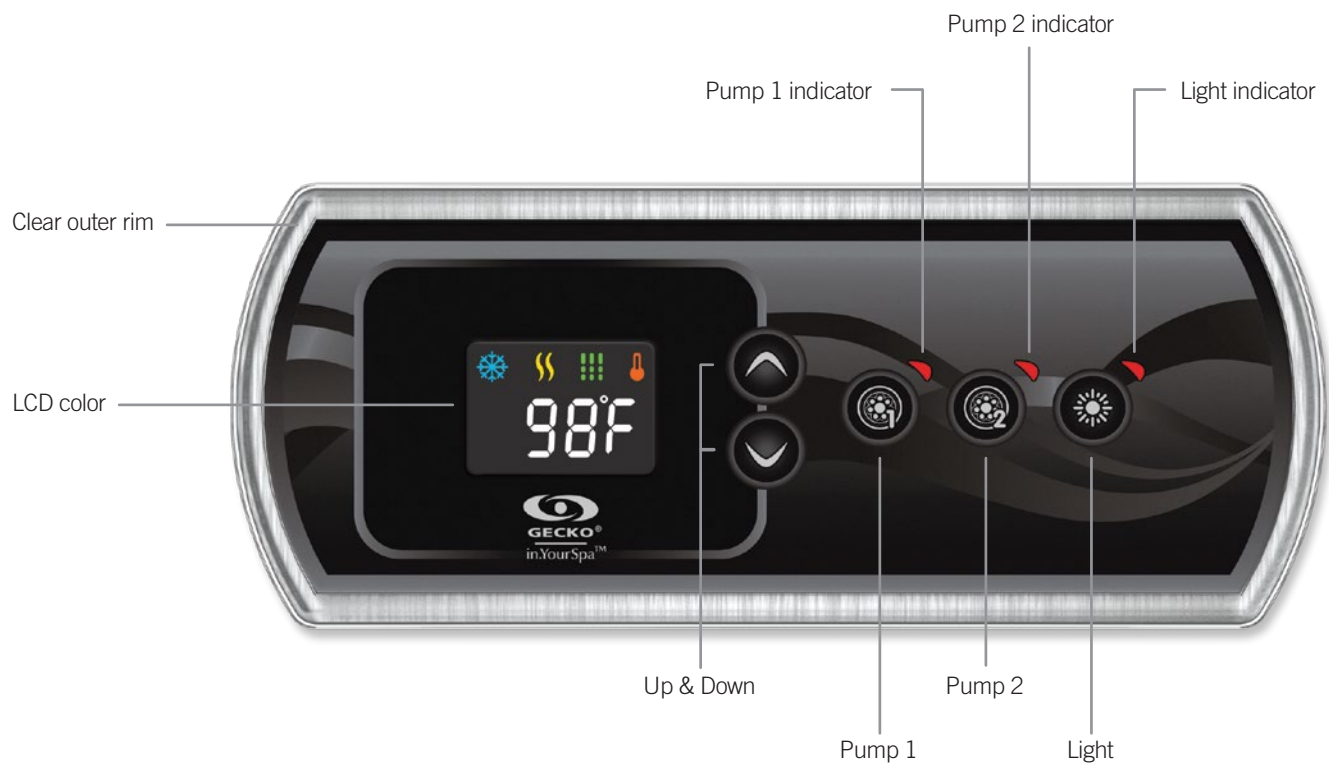

Our solidly built in.k330 supports Gecko's in.lu.me LED lights system and our brand new in.temp. It brings all the features you really need to one keypad. It is the perfect choice for your customers who want quality!
